DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney of record, **Thomas Isaacson, Reg.No. 44,166, on October 20, 2004.**

The application has been amended as follows:

Cancel claims 1-5 and 7-16.

Amend claim 6 as follows:

6. A voice-operated arrangement for interacting with a plurality of dual-tone multi-frequency (DTMF)-controlled systems associated with a user, the arrangement comprising:

a speech recognition unit that generates a digital signal representative of a particular received voice command from the user; and

a speech-to-DTMF tones application that responds to the digital signal, accesses a user record from a plurality of records, retrieves dial-out information for one of the plurality of DTMF-controlled systems and completes a communication path between the user and the one DTMF-controlled system, wherein:

the voice-operated arrangement monitors the communication path, retrieves further voice commands uttered by the user and translates the further voice commands into DTMF tones which are thereafter transmitted to the one DTMF-controlled system;

the user record comprises a plurality of different fields comprises a series of said DTMF tones for accessing the one DTMF-controlled system within the plurality of DTMF-controlled systems.

Allowable Subject Matter

2. Amended Claim 6 is now allowed and renumbered as claim 1. It is noted that claim 15 as amended in applicant's after-final amendment submitted 09/13/04 has been cancelled per authorization via telephone conversation with above attorney.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach, inter alia, a Speech-to-DTMF application that accesses a user record from a plurality of records and retrieves dial-out information for a DTMF-controlled system from the record to complete a communication path between the user and the DTMF-controlled system, wherein the application monitors the path and retrieves further voice commands by the user and translates the voice commands into DTMF tones which are thereafter sent to the DTMF-controlled system; the user record comprising a plurality of fields for each DTMF-controlled system and the fields comprising a series of said DTMF tones for accessing the one DTMF-controlled system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph T Phan whose telephone number is 703-305-3206. The examiner can normally be reached on M-TH 9:00-6:30, in every other Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Fan Tsang can be reached on 703-305-4895. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
